Frontend developer

igornbelisario@gmail.com | Brazil

GitHub | LinkedIn | <https://portfolio-delta-one-12.vercel.app/en>

I'm a frontend developer who enjoys the part of the job between design and code: turning a layout into something that responds well to touch, to a keyboard and to a bad connection.

I work mostly with React, Next.js and TypeScript, and I care about accessibility, performance and code that still reads well six months from now.

Experience and education

Next.js Intern

Upvox | 2026-08 - present

Web and mobile development with Next.js, React Native and TypeScript.

C Developer (volunteer)

Robotbulls | 2023-02 - 2024-06

C programming for the robotics team.

B.Eng. in Computer Engineering

Inatel - Instituto Nacional de Telecomunicações | 2022-02 - 2027-12

Engineering, object-oriented programming and computing fundamentals. Expected graduation in Dec 2027.

Administrative Assistant

Madeira União | 2020-01 - 2022-12

Inventory control and administrative routines with Microsoft Office.
